

AI in Education – How AI is Changing the Way We Learn

Introduction

AI is already part of our lives. It helps students learn more efficiently and expand their perspectives.

Learning efficiency

Before using AI **After** using AI

AI Tools in Learning

Gamification and Language Learning

Data Analysis and Teaching Assistance

advantages

- ✓ Personalized learning
- ✓ Instant feedback
- ✓ Improve learning efficiency
- ✓ Self-directed learning ability

Challenges

- ⚠ Risk of cheating
- ⚠ Over-reliance on AI
- ⚠ Lack of human interaction
- ⚠ Reduced independent thinking

My Opinion

We should use AI correctly, think independently, and not depend on it too much.
